A complete, self-contained practice book for OG-2 aspirants —
concept notes, exam pattern and fully explained answers.

Contents

About SBOTS & the Written Test

Chapter 1 — English Language & Verbal Ability 100 Questions

Chapter 2 — Quantitative Reasoning 100 Questions

Chapter 3 — Analytical & Logical Reasoning 100 Questions

Chapter 4 — Banking, Economy, GK & Current Affairs 100 Questions

Final Words & Test-Day Checklist

A note on sources. Every question in this book is original, written specifically for SBOTS practice. Nothing is copied from past papers or any publisher's guide — which also means you can share this book freely with other aspirants.

About SBOTS & the Written Test

The State Bank Officers Training Scheme (SBOTS) is the State Bank of Pakistan's flagship induction program for OG-2 officers. It recruits graduates from across Pakistan through a competitive written test, followed by group discussion and panel interviews. Selected officers train at NIBAF (National Institute of Banking and Finance) before joining SBP.

Written Test Pattern (Typical)

- English Language & Verbal Ability — vocabulary, grammar, sentence completion, reading comprehension.
- Quantitative Reasoning — percentages, profit/loss, interest, ratio, averages, time & work, algebra, data interpretation.
- Analytical & Logical Reasoning — syllogisms, series, coding-decoding, blood relations, direction sense, puzzles.
- GK, Current Affairs & Banking Awareness — SBP functions, monetary policy, Islamic banking, Pakistan economy, Pakistan studies, world GK.
- MCQ-based with a fixed time limit — speed and accuracy both matter. Typically no negative marking: attempt every question.

How to Use This Book

- Attempt each section timed (about 1 minute per question) before reading the answers.
- Read every explanation — even for questions you got right; the shortcuts compound.
- Mark weak topics and revise the concept notes at the start of each chapter.
- In the final week, re-attempt only the questions you got wrong the first time.

01 English Language & Verbal Ability

Vocabulary • Grammar • Comprehension • Verbal Reasoning

Concept Notes

VOCABULARY

Learn roots: bene- (good), mal- (bad), phil- (love), phob- (fear), chron- (time). For synonyms/antonyms, watch the degree of the word — options often differ only in intensity.

GRAMMAR

Subject–verb agreement: singular subjects take singular verbs (the list of items is long). Watch parallel structure, articles, and verb–preposition pairs (rely on, insist on, accused of).

SENTENCE COMPLETION

Read the whole sentence first and predict the missing word's tone (positive/negative) before scanning the options.

READING COMPREHENSION

Read the questions first, then scan the passage. Main-idea answers come from the passage's overall argument, not one detail.

Practice Questions

1 Choose the word closest in meaning to ABUNDANT.

A. plentiful ✓
B. scarce
C. rare
D. limited

✓ **Correct Answer: A** Abundant means existing in large quantities; plentiful is its closest synonym.

2 Choose the word closest in meaning to CANDID.

A. rude
B. secretive
C. shy
D. frank ✓

✓ **Correct Answer: D** Candid means speaking honestly and openly; frank is its synonym.

3 Choose the word closest in meaning to METICULOUS.

A. careful ✓
B. careless
C. hasty
D. lazy

✓ **Correct Answer: A** Meticulous means showing great attention to detail; careful is its synonym.

4 Choose the word closest in meaning to OBSTINATE.

A. flexible
B. stubborn ✓
C. gentle
D. open-minded

✓ **Correct Answer: B** Obstinate means refusing to change one's opinion; stubborn is its synonym.

5 Choose the word closest in meaning to PRUDENT.

A. wise ✓
B. reckless
C. hasty
D. foolish

✓ **Correct Answer: A** Prudent means acting with care and good judgement; wise is its synonym.

6 Choose the word closest in meaning to ERUDITE.

A. learned ✓
B. ignorant
C. simple
D. rude

✓ **Correct Answer: A** Erudite means having great knowledge; learned is its synonym.

7 Choose the word closest in meaning to VIVID.

A. dull
B. vague
C. dim
D. lively ✓

✓ **Correct Answer: D** Vivid means producing strong, clear images in the mind; lively is its closest synonym here.

8 Choose the word closest in meaning to TRANSIENT.

A. permanent
B. temporary ✓
C. eternal
D. lasting

✓ **Correct Answer: B** Transient means lasting only for a short time; temporary is its synonym.

9 Choose the word closest in meaning to AUDACIOUS.

A. timid
B. bold ✓
C. cautious
D. fearful

✓ **Correct Answer: B** Audacious means willing to take surprisingly bold risks; bold is its synonym.

10 Choose the word closest in meaning to DILIGENT.

A. lazy
B. careless
C. idle
D. hardworking ✓

✓ **Correct Answer: D** Diligent means working carefully and with effort; hardworking is its synonym.

11 Choose the word closest in meaning to AMBIGUOUS.

A. clear
B. obvious
C. certain
D. unclear ✓

✓ **Correct Answer: D** Ambiguous means open to more than one interpretation; unclear is its synonym.

12 Choose the word closest in meaning to INEVITABLE.

A. avoidable
B. uncertain
C. doubtful
D. unavoidable ✓

✓ **Correct Answer: D** Inevitable means certain to happen; unavoidable is its synonym.

13 Choose the word closest in meaning to FRAGILE.

A. delicate ✓
B. strong
C. tough
D. durable

✓ **Correct Answer: A** Fragile means easily broken or damaged; delicate is its synonym.

14 Choose the word opposite in meaning to SCARCE.

A. rare
B. limited
C. short
D. abundant ✓

✓ **Correct Answer: D** Scarce means in short supply; its opposite is abundant.

15 Choose the word opposite in meaning to TRANSPARENT.

A. clear
B. obvious
C. opaque ✓
D. bright

✓ **Correct Answer: C** Transparent means allowing light through; its opposite is opaque.

16 Choose the word opposite in meaning to EXPAND.

A. enlarge
B. extend
C. contract ✓
D. grow

✓ **Correct Answer: C** Expand means to become larger; its opposite is contract.

17 Choose the word opposite in meaning to RIGID.

A. flexible ✓
B. stiff
C. hard
D. firm

✓ **Correct Answer: A** Rigid means stiff and unchanging; its opposite is flexible.

18 Choose the word opposite in meaning to PESSIMIST.

A. cynic
B. doubter
C. optimist ✓
D. critic

✓ **Correct Answer: C** A pessimist expects the worst; an optimist expects the best.

19 Choose the word opposite in meaning to VICTORY.

A. defeat ✓
B. triumph
C. success
D. win

✓ **Correct Answer: A** Victory means winning; its opposite is defeat.

20 Choose the word opposite in meaning to BRAVE.

A. bold
B. heroic
C. courageous
D. cowardly ✓

✓ **Correct Answer: D** Brave means showing no fear; its opposite is cowardly.

21 Choose the word opposite in meaning to GENEROUS.

A. kind
B. giving
C. liberal
D. stingy ✓

✓ **Correct Answer: D** Generous means willing to give freely; its opposite is stingy.

22 Choose the word opposite in meaning to HONEST.

A. truthful
B. sincere
C. deceitful ✓
D. fair

✓ **Correct Answer: C** Honest means truthful; its opposite is deceitful.

23 Choose the word opposite in meaning to ANCIENT.

A. old
B. modern ✓
C. antique
D. aged

✓ **Correct Answer: B** Ancient means very old; its opposite is modern.

24 Choose the word opposite in meaning to ARRIVAL.

A. coming
B. entry
C. departure ✓
D. approach

✓ **Correct Answer: C** Arrival means reaching a place; its opposite is departure.

25 Choose the word opposite in meaning to COMPULSORY.

A. mandatory
B. required
C. optional ✓
D. forced

✓ **Correct Answer: C** Compulsory means required by rule; its opposite is optional.

26 Spot the error: She do not like tea in the morning.

A. She do not ✓
B. like tea
C. in the morning
D. No error

✓ **Correct Answer: A** With a singular subject, use does not, not do not.

27 Spot the error: He is one of the tallest boy in the class.

A. He is
B. one of the
C. tallest boy ✓
D. in the class

✓ **Correct Answer: C** One of the is followed by a plural noun, so it should be tallest boys.

28 Spot the error: The committee has submitted their report.

A. The committee
B. has submitted
C. No error
D. their report ✓

✓ **Correct Answer: D** Committee is singular here, so the pronoun must be its, not their.

29 Spot the error: I have been working here since three years.

A. I have been
B. working here
C. since three years ✓
D. No error

✓ **Correct Answer: C** Use for with a period of time; since is used with a point of time.

30 Spot the error: Neither of the answers were correct.

A. were ✓
B. Neither of the answers
C. correct
D. No error

✓ **Correct Answer: A** Neither is singular, so the verb must be was, not were.

31 Spot the error: He asked me that why I was late.

A. that why I ✓
B. He asked me
C. was late
D. No error

✓ **Correct Answer: A** In indirect questions, do not use that before the question word.

32 Spot the error: My brother is elder than me by two years.

A. My brother is
B. elder than ✓
C. me by two years
D. No error

✓ **Correct Answer: B** For comparisons of age, use older than, not elder than.

33 Spot the error: Each of the students have submitted his assignment.

A. Each of the students
B. have submitted ✓
C. his assignment
D. No error

✓ **Correct Answer: B** Each is singular, so the verb must be has submitted.

34 Spot the error: The reason why he was absent was because he was ill.

A. The reason why
B. he was absent
C. No error
D. was because he was ill ✓

✓ **Correct Answer: D** Reason already implies because; the correct form is was that he was ill.

35 Spot the error: Scarcely had he arrived when the train left.

A. Scarcely had he arrived
B. when the
C. train left
D. No error ✓

✓ **Correct Answer: D** The sentence is correct: scarcely is correctly followed by when.

36 Spot the error: He prefers coffee than tea in the morning.

A. than tea ✓
B. He prefers coffee
C. in the morning
D. No error

✓ **Correct Answer: A** Prefer is followed by to, not than: prefers coffee to tea.

37 She has been working in this bank ___ 2019.

✓ **Correct Answer: A** Since is used with a point of time in the past, such as a year.

38 He was accused ___ stealing the documents.

A. for
B. with
C. of ✓
D. about

✓ **Correct Answer: C** The correct preposition after accused is of.

39 The interview is scheduled ___ Monday morning.

A. in
B. at
C. on ✓
D. by

✓ **Correct Answer: C** On is used with days of the week.

40 She is very good ___ mathematics.

A. at ✓
B. in
C. for
D. with

✓ **Correct Answer: A** The correct phrase is good at a subject.

41 By the time we reached the station, the train ___ already left.

A. has
B. have
C. was
D. had ✓

✓ **Correct Answer: D** The earlier of two past actions uses the past perfect: had left.

42 She ___ for the test since early morning.

A. is studying
B. studies
C. has been studying ✓
D. study

✓ **Correct Answer: C** An action continuing from the past to now uses the present perfect continuous.

43 If I ___ the manager, I would change the policy.

A. am
B. was
C. were ✓
D. be

✓ **Correct Answer: C** In unreal conditional sentences, were is used with all subjects.

44 I am looking forward ___ hearing from you.

A. to ✓
B. for
C. at
D. of

✓ **Correct Answer: A** Looking forward to is followed by a gerund, not an infinitive.

45 ___ honest man is always respected.

A. A
B. An ✓
C. The
D. No article

✓ **Correct Answer: B** Honest begins with a vowel sound, so it takes an.

46 He congratulated me ___ my promotion.

A. on ✓
B. for
C. at
D. about

✓ **Correct Answer: A** The correct collocation is congratulate someone on something.

47 Choose the grammatically correct sentence.

A. He don't like coffee.
B. He doesn't like coffee. ✓
C. He doesn't likes coffee.
D. He not like coffee.

✓ **Correct Answer: B** A singular subject takes doesn't, and the main verb stays in base form.

A. nervous
B. composed ✓
C. silent
D. absent

✓ **Correct Answer: B** A leader under pressure must stay composed, or calm and controlled.

65 The old bridge was declared ___ and closed to traffic.

A. safe
B. modern
C. unsafe ✓
D. beautiful

✓ **Correct Answer: C** A bridge closed to traffic has been declared unsafe.

66 Read the passage, then answer: The central bank of a country plays a vital role in maintaining economic stability. Unlike commercial banks, a central bank does not deal directly with the general public. Its primary responsibility is to regulate the money supply and control inflation through monetary policy. When inflation rises too fast, the central bank may increase interest rates, making borrowing more expensive and reducing spending. Conversely, when the economy slows down, it may lower interest rates to encourage borrowing and investment. The central bank also acts as a lender of last resort, providing emergency funds to commercial banks facing a crisis. In addition, it manages the country's foreign exchange reserves and issues currency notes. It also supervises commercial banks to make sure they follow the rules and remain financially sound. When a central bank fails to act in time, the whole economy can suffer from rising prices and falling confidence. That is why central bankers are often called the guardians of a nation's economy. The State Bank of Pakistan, established in 1948, performs all these functions for Pakistan. What is the main purpose of the passage?

A. To describe the functions of a central bank ✓
B. To compare commercial and central banks only
C. To explain how inflation is measured
D. To criticise the State Bank of Pakistan

✓ **Correct Answer: A** The passage explains the various functions of a central bank.

67 (Same passage) When inflation rises too fast, what does the central bank usually do?

A. increases interest rates ✓
B. lowers interest rates
C. prints more currency
D. closes commercial banks

✓ **Correct Answer: A** The passage states that high inflation leads the central bank to increase interest rates.

68 (Same passage) What does the phrase lender of last resort mean?

A. A bank that provides emergency funds to commercial banks ✓
B. A bank that lends directly to the public
C. A bank that refuses all loans
D. The newest bank in a country

✓ **Correct Answer: A** Lender of last resort refers to emergency funds given to commercial banks in crisis.

69 (Same passage) According to the passage, the State Bank of Pakistan was established in:

A. 1947
B. 1956
C. 1948 ✓
D. 1974

✓ **Correct Answer: C** The passage states that the State Bank of Pakistan was established in 1948.

70 (Same passage) Why might a central bank lower interest rates when the economy slows down?

A. Discourage all borrowing
B. Close weak banks
C. Encourage borrowing and investment ✓
D. Increase inflation deliberately

✓ **Correct Answer: C** Lowering rates during a slowdown is meant to encourage borrowing and investment.

71 Read the passage, then answer: Inflation is the steady rise in the general prices of goods and services over time. When inflation is moderate, it is often seen as a sign of a growing economy. However, when prices rise too quickly, the purchasing power of money falls, and ordinary people can buy less with the same income. Several factors can cause inflation. Demand-pull inflation occurs when too much money chases too few goods. Cost-push inflation happens when the cost of production, such as wages or raw materials, increases and producers pass these costs on to consumers. Central banks usually aim to keep inflation within a target range, often around two to five percent. They use tools like interest rates to achieve this goal. For savers, high inflation is bad news because the real value of their savings shrinks. For borrowers, mild inflation can be helpful because the real burden of their debt decreases over time. Workers also feel the pressure, as their salaries may not rise as fast as prices. Governments therefore watch inflation figures closely and adjust their policies to protect people's living standards. What is the main idea of the passage?

A. Causes and effects of inflation ✓
B. How to calculate inflation
C. The history of inflation
D. Why inflation is always good

✓ **Correct Answer: A** The passage discusses what causes inflation and how it affects savers and borrowers.

72 (Same passage) Demand-pull inflation occurs when:

A. too much money chases too few goods ✓
B. production costs rise
C. wages fall
D. interest rates rise

✓ **Correct Answer: A** The passage defines demand-pull inflation as too much money chasing too few goods.

73 (Same passage) Which of the following best describes cost-push inflation?

A. Lower interest rates
B. Excessive consumer demand
C. Rising production costs passed on to consumers ✓
D. Government subsidies

✓ **Correct Answer: C** Cost-push inflation is caused by rising production costs passed on to consumers.

74 (Same passage) High inflation is bad news for:

A. Borrowers
B. Exporters
C. Savers ✓
D. Producers

✓ **Correct Answer: C** The passage says high inflation shrinks the real value of savers' savings.

75 (Same passage) Why can mild inflation be helpful for borrowers?

A. Interest rates fall to zero
B. The real burden of their debt decreases ✓
C. Banks forgive their loans
D. Their income always doubles

✓ **Correct Answer: B** With mild inflation, the real burden of debt decreases over time.

76 Read the passage, then answer: Digital banking is changing the way people in Pakistan manage their money. With mobile banking apps and branchless banking services, customers can now transfer funds, pay bills, and check balances without visiting a bank branch. This is especially important for people living in rural areas, where bank branches are few and far between. Financial inclusion, which means bringing unbanked people into the formal banking system, has become a national priority. Services like mobile wallets allow even those without a traditional bank account to send and receive money securely. However, challenges remain. Many people still lack trust in digital systems, and limited internet access in remote areas slows progress. Cybersecurity is another concern, as online fraud continues to grow. Despite these obstacles, experts believe that digital banking will keep expanding. Greater financial inclusion means more savings, easier access to credit, and ultimately stronger economic growth for the country. Small businesses also benefit, since they can receive payments quickly and keep a clear record of their transactions. What is the main idea of the passage?

A. Problems of traditional banking
B. The history of mobile phones
C. Why people distrust banks
D. How digital banking promotes financial inclusion ✓

✓ **Correct Answer: D** The passage focuses on digital banking bringing unbanked people into the system.

77 (Same passage) According to the passage, financial inclusion means:

A. Closing rural bank branches
B. Bringing unbanked people into the banking system ✓
C. Increasing interest rates
D. Printing more currency notes

✓ **Correct Answer: B** The passage defines financial inclusion as bringing unbanked people into the formal banking system.

78 (Same passage) Who benefits most from mobile wallet services?

A. Foreign investors only
B. Bank managers only
C. People without traditional bank accounts ✓
D. Wealthy customers

✓ **Correct Answer: C** Mobile wallets let people without a traditional bank account send and receive money.

79 (Same passage) Which of the following is NOT mentioned as a challenge?

A. Limited internet access
B. Lack of trust in digital systems
C. Cybersecurity concerns
D. High bank profits ✓

✓ **Correct Answer: D** Limited internet, lack of trust, and cybersecurity are mentioned; high bank profits are not.

80 (Same passage) According to the passage, digital banking will:

A. Keep expanding ✓
B. Soon disappear
C. Replace all cash immediately
D. Stop serving rural areas

✓ **Correct Answer: A** The passage concludes that experts believe digital banking will keep expanding.

81 Doctor is to Hospital as Teacher is to:

A. Classroom
B. School ✓
C. Student
D. Book

✓ **Correct Answer: B** A doctor works in a hospital; a teacher works in a school.

82 Bird is to Nest as Bee is to:

A. Hive ✓
B. Honey
C. Flower
D. Wing

✓ **Correct Answer: A** A bird lives in a nest; a bee lives in a hive.

83 Hot is to Cold as Light is to:

A. Bright
B. Sun
C. Lamp
D. Dark ✓

✓ **Correct Answer: D** Hot and cold are opposites; light and dark are opposites.

84 Pen is to Write as Knife is to:

A. Steel
B. Cut ✓
C. Cook
D. Sharp

✓ **Correct Answer: B** A pen is used to write; a knife is used to cut.

85 Lion is to Den as Horse is to:

A. Stable ✓
B. Saddle
C. Field
D. Hay

✓ **Correct Answer: A** A lion lives in a den; a horse is kept in a stable.

86 Clock is to Time as Thermometer is to:

A. Doctor
B. Mercury
C. Temperature ✓
D. Fever

✓ **Correct Answer: C** A clock measures time; a thermometer measures temperature.

87 Chef is to Kitchen as Pilot is to:

A. Airport
B. Sky
C. Plane
D. Cockpit ✓

✓ **Correct Answer: D** A chef works in a kitchen; a pilot works in a cockpit.

88 Sun is to Day as Moon is to:

A. Star
B. Night ✓
C. Light
D. Sky

✓ **Correct Answer: B** The sun appears in the day; the moon appears at night.

89 Hammer is to Nail as Screwdriver is to:

A. Screw ✓
B. Wood
C. Handle
D. Tool

✓ **Correct Answer: A** A hammer drives a nail; a screwdriver drives a screw.

90 Author is to Book as Composer is to:

A. Piano
B. Singer
C. Music ✓
D. Song

✓ **Correct Answer: C** An author creates a book; a composer creates music.

91 King is to Crown as Judge is to:

A. Court
B. Law
C. Robe
D. Gavel ✓

✓ **Correct Answer: D** A king wears a crown; a judge holds a gavel as a symbol of authority.

92 Caterpillar is to Butterfly as Tadpole is to:

A. Fish
B. Frog ✓
C. Pond
D. Egg

✓ **Correct Answer: B** A caterpillar grows into a butterfly; a tadpole grows into a frog.

93 Find the odd one out:

A. Apple
B. Mango
C. Banana
D. Carrot ✓

✓ **Correct Answer: D** Apple, mango, and banana are fruits; carrot is a vegetable.

94 Find the odd one out:

A. Oak ✓
B. Rose
C. Lily
D. Jasmine

✓ **Correct Answer: A** Rose, lily, and jasmine are flowers; oak is a tree.

95 Find the odd one out:

A. Happy ✓
B. Run
C. Walk
D. Swim

✓ **Correct Answer: A** Run, walk, and swim are verbs; happy is an adjective.

96 Find the odd one out:

A. Karachi
B. Lahore
C. Punjab ✓
D. Islamabad

✓ **Correct Answer: C** Karachi, Lahore, and Islamabad are cities; Punjab is a province.

97 Find the odd one out:

A. Gold
B. Wood ✓
C. Silver
D. Iron

✓ **Correct Answer: B** Gold, silver, and iron are metals; wood is not a metal.

98 Find the odd one out:

A. Fan ✓
B. Chair
C. Table
D. Bed

✓ **Correct Answer: A** Chair, table, and bed are furniture; a fan is an appliance.

99 Find the odd one out:

A. Monday
B. January ✓
C. Tuesday
D. Friday

✓ **Correct Answer: B** Monday, Tuesday, and Friday are days of the week; January is a month.

100 Find the odd one out:

A. Hospital ✓
B. Doctor
C. Engineer
D. Teacher

✓ **Correct Answer: A** Doctor, engineer, and teacher are professions; a hospital is a place.

02 Quantitative Reasoning

Percentages • Interest • Ratio • Algebra • Data Interpretation

Concept Notes

PERCENTAGES

x% of N = x×N/100. Successive changes do NOT add: +20% then −20% is a net −4% (1.20 × 0.80 = 0.96).

PROFIT & LOSS

Profit% is always on cost price; discount% is on marked price. SP = CP × (1 + profit%).

INTEREST

Simple interest: I = P×R×T/100. Compound: A = $P(1 + R/100)^n$. For 2 years, CI − SI = $P(R/100)^2$ — a favourite shortcut.

RATIO & AVERAGES

If a:b = 2:3 and b:c = 4:5, make b common: a:b:c = 8:12:15. Average = sum ÷ count.

TIME & WORK

Work = rate × time. A in x days and B in y days together: 1/x + 1/y = 1/T.

SPEED

km/h → m/s: multiply by 5/18. Average speed for equal distances at speeds a and b: 2ab/(a+b).

Practice Questions

1 A shopkeeper marks an item 20% above its cost price of Rs 450, then gives a 10% discount on the marked price. What is the selling price?

A. Rs 486 ✓
B. Rs 475
C. Rs 500
D. Rs 450

✓ **Correct Answer: A** Marked price = 450 x 1.20 = 540; after 10% discount = 540 x 0.90 = 486

2 20% of a certain number is 90. What is the number?

A. 480
B. 450 ✓
C. 380
D. 420

✓ **Correct Answer: B** number = 90 / 0.20 = 450

3 A man sells a watch for Rs 3,360 at a gain of 12%. What was its cost price?

A. Rs 3,080
B. Rs 2,900
C. Rs 2,950
D. Rs 3,000 ✓

✓ **Correct Answer: D** CP = 3360 / 1.12 = 3000

4 A trader offers a 20% discount on the marked price and still earns a 20% profit on cost. The marked price is what percent above the cost price?

A. 45%
B. 50% ✓
C. 40%
D. 55%

✓ **Correct Answer: B** CP=100, SP=120; SP = 80% of MP so MP = 120/0.80 = 150, i.e. 50% above cost

5 The price of sugar rises by 25%. By what percent must a family reduce its consumption so that the expense on sugar stays the same?

A. 25%
B. 30%
C. 16.67%
D. 20% ✓

✓ **Correct Answer: D** New price = 1.25p; quantity must fall to 1/1.25 = 0.80, i.e. a 20% cut

6 An employee's salary is increased by 10% and then by 10% again. What is the overall percentage increase?

A. 21% ✓
B. 25%
C. 22%
D. 20%

✓ **Correct Answer: A** 1.10 x 1.10 = 1.21, so 21% overall

7 A book is sold for Rs 560 after a 30% discount on its marked price. What was the marked price?

A. Rs 800 ✓
B. Rs 750
C. Rs 700
D. Rs 850

✓ **Correct Answer: A** MP = 560 / 0.70 = 800

8 An article costing Rs 200 is marked up 40% and then sold at a 25% discount. What is the selling price?

A. Rs 200
B. Rs 220
C. Rs 190
D. Rs 210 ✓

✓ **Correct Answer: D** MP = 200 x 1.40 = 280; SP = 280 x 0.75 = 210

9 A merchant makes a 25% profit on the selling price of an item. What is his profit percent on the cost price?

A. 25%
B. 33.33% ✓
C. 30%
D. 40%

✓ **Correct Answer: B** Take SP=100: profit=25, CP=75; profit on cost = 25/75 = 33.33%

10 A town's population is 40,000 and grows 10% every year. What will it be after 2 years?

A. 48,800
B. 49,000
C. 48,000
D. 48,400 ✓

✓ **Correct Answer: D** 40000 x 1.10 x 1.10 = 40000 x 1.21 = 48400

11 A student scores 65% in an exam of 800 marks. How many marks did the student obtain?

A. 520 ✓
B. 510
C. 530
D. 500

✓ **Correct Answer: A** 65% of 800 = 0.65 x 800 = 520

12 An article is sold for Rs 1,750 at a loss of 12.5%. What was its cost price?

A. Rs 2,100
B. Rs 2,000 ✓
C. Rs 1,900
D. Rs 1,800

✓ **Correct Answer: B** CP = 1750 / 0.875 = 2000

13 If 15% of x is 45, then 40% of x is equal to:

A. 130
B. 110
C. 100
D. 120 ✓

✓ **Correct Answer: D** x = 45/0.15 = 300; 40% of 300 = 120

14 A jacket is sold for Rs 960 after two successive discounts of 20% and 25%. What was its marked price?

A. Rs 1,700
B. Rs 1,800
C. Rs 1,600 ✓
D. Rs 1,500

✓ **Correct Answer: C** 960 = MP x 0.80 x 0.75 = MP x 0.60, so MP = 960/0.60 = 1600

15 A dealer sells a machine for Rs 69,000 at a gain of 15%. If he had sold it for Rs 57,000 instead, what would be the gain or loss percent?

A. 5% gain
B. 5% loss ✓
C. No gain, no loss
D. 10% loss

✓ **Correct Answer: B** CP = 69000/1.15 = 60000; loss = 3000 on 60000 = 5% loss

16 A shopkeeper uses a false weight that reads 1 kg for an actual 900 grams, buying and selling at the same rate per kg. What is his overall profit percent?

A. 20%
B. 10%
C. 12.5%
D. 11.11% ✓

✓ **Correct Answer: D** He effectively sells 1000 g for the price of 900 g: gain = 100/900 = 11.11%

17 The price of petrol falls by 20%. A driver wants his total fuel expense to fall by 30%. By what percent must he reduce his consumption?

A. 12.5% ✓
B. 20%
C. 15%
D. 10%

✓ **Correct Answer: A** New expense 0.70 = 0.80 x new quantity fraction, so quantity = 0.875: a 12.5% cut

18 In a class, 60% of the students are boys and the number of girls is 16. What is the total number of students?

A. 40 ✓
B. 48
C. 36
D. 44

✓ **Correct Answer: A** Girls = 40% = 16, so total = 16/0.40 = 40

19 An item is sold for Rs 1,440 at a gain of 20%. What was its cost price?

A. Rs 1,300
B. Rs 1,250
C. Rs 1,200 ✓
D. Rs 1,150

✓ **Correct Answer: C** CP = 1440 / 1.20 = 1200

20 A trader marks his goods 50% above cost and then gives a 30% discount. What is his net profit or loss percent?

A. 5% gain ✓
B. 5% loss
C. 10% gain
D. 20% gain

✓ **Correct Answer: A** CP=100, MP=150, SP=150 x 0.70 = 105: a 5% gain

21 Two numbers are in the ratio 3:5 and their sum is 72. What is the larger number?

A. 36
B. 45 ✓
C. 50
D. 40

✓ **Correct Answer: B** 8 parts = 72, so 1 part = 9; larger = 5 x 9 = 45

22 Rs 2,100 is divided among three people in the ratio 2:3:5. What is the smallest share?

A. Rs 400
B. Rs 450
C. Rs 440
D. Rs 420 ✓

✓ **Correct Answer: D** 10 parts = 2100, 1 part = 210; smallest = 2 x 210 = 420

23 The average of 5 numbers is 27. If one number is excluded, the average of the rest becomes 25. Which number was excluded?

A. 32
B. 38
C. 35 ✓
D. 30

✓ **Correct Answer: C** Total 135, remaining total 4 x 25 = 100; excluded = 135 - 100 = 35

24 The average age of 8 people is 24 years. A new person joins and the average becomes 26 years. What is the new person's age?

A. 42 ✓
B. 44
C. 38
D. 40

✓ **Correct Answer: A** Total was 192; new total 9 x 26 = 234; new person = 42

25 A 40-litre mixture has milk and water in the ratio 3:2. How much water must be added to make the ratio 3:4?

A. 16 litres ✓
B. 12 litres
C. 14 litres
D. 18 litres

✓ **Correct Answer: A** Milk = 24 L, water = 16 L; to get 24:water = 3:4, water must be 32 L: add 16 L

26 If A:B = 2:3 and B:C = 4:5, then A:C is equal to:

A. 8:10
B. 10:12
C. 8:15 ✓
D. 6:15

✓ **Correct Answer: C** A:B = 8:12 and B:C = 12:15, so A:C = 8:15

27 What is the average of the first 10 even numbers?

A. 13
B. 12
C. 11 ✓
D. 10

✓ **Correct Answer: C** Numbers are 2,4,...,20; average = (2+20)/2 = 11

28 A vessel holds 60 litres of milk. 12 litres are drawn out and replaced with water; this is done twice in total. How much milk remains?

A. 38.4 litres ✓
B. 42 litres
C. 36 litres
D. 40 litres

✓ **Correct Answer: A** Milk left = 60 x (48/60)^2 = 60 x 0.64 = 38.4 L

29 If a:b = 3:4 and b:c = 5:6, then a:b:c is equal to:

A. 12:15:20
B. 3:4:6
C. 15:20:24 ✓
D. 5:6:8

✓ **Correct Answer: C** a=3x5=15, b=4x5=20=5x4, c=6x4=24, so 15:20:24

30 The average marks of 20 students is 62. The average of the first 10 is 58 and of the last 9 is 64. How many marks did the remaining student score?

A. 80
B. 82
C. 84 ✓
D. 86

✓ **Correct Answer: C** Total 1240; known = 580 + 576 = 1156; remaining = 1240 - 1156 = 84

31 A sum of money is divided among P, Q and R in the ratio 5:7:8. If Q receives Rs 1,400, what is the total sum?

A. Rs 4,000 ✓
B. Rs 3,600
C. Rs 4,200
D. Rs 3,800

✓ **Correct Answer: A** 7 parts = 1400, so 1 part = 200; total 20 parts = 4000

32 A 36-litre mixture has juice and water in the ratio 5:4. How much juice must be added so that the ratio becomes 7:4?

A. 6 litres
B. 9 litres
C. 8 litres ✓
D. 7 litres

✓ **Correct Answer: C** Juice = 20 L, water = 16 L; need juice = 28 L for 28:16 = 7:4: add 8 L

33 The mean of 12 numbers is 15. If each number is increased by 3, what is the new mean?

A. 15
B. 16
C. 18 ✓
D. 27

✓ **Correct Answer: C** Adding 3 to every value adds 3 to the mean: 15 + 3 = 18

34 The ages of a father and son are in the ratio 5:3, and the difference between their ages is 24 years. How old is the father?

A. 56 years
B. 64 years
C. 54 years
D. 60 years ✓

✓ **Correct Answer: D** 2 parts = 24, so 1 part = 12; father = 5 x 12 = 60

35 A cricketer's batting average after 15 innings is 40. After the 16th innings his average rises to 42. How many runs did he score in the 16th innings?

A. 70
B. 72 ✓
C. 68
D. 74

✓ **Correct Answer: B** Runs after 15 = 600; after 16 = 672; 16th innings = 672 - 600 = 72

36 What is the simple interest on Rs 8,000 at 6% per annum for 3 years?

A. Rs 1,320
B. Rs 1,440 ✓
C. Rs 1,500
D. Rs 1,200

✓ **Correct Answer: B** SI = 8000 x 0.06 x 3 = 1440

37 A sum of money doubles itself in 8 years at simple interest. What is the annual rate?

A. 12.5% ✓
B. 10%
C. 15%
D. 16%

✓ **Correct Answer: A** Interest = principal in 8 years, so rate = 100/8 = 12.5%

38 What is the compound interest on Rs 10,000 at 10% per annum for 2 years, compounded annually?

A. Rs 2,000
B. Rs 2,100 ✓
C. Rs 2,050
D. Rs 2,200

✓ **Correct Answer: B** Amount = 10000 x 1.21 = 12100; interest = 2100

39 In how many years will Rs 5,000 amount to Rs 6,500 at 10% simple interest per annum?

A. 3 years ✓
B. 2 years
C. 5 years
D. 4 years

✓ **Correct Answer: A** Interest needed = 1500 = 5000 x 0.10 x t, so t = 3

40 A bank pays 8% per annum compounded annually. What will Rs 12,500 grow to in 2 years?

A. Rs 14,800
B. Rs 14,250
C. Rs 14,580 ✓
D. Rs 14,000

✓ **Correct Answer: C** 12500 x 1.08 x 1.08 = 12500 x 1.1664 = 14580

41 The simple interest on a sum at 5% per annum for 4 years is Rs 600. What is the sum?

A. Rs 3,200
B. Rs 2,800
C. Rs 2,500
D. Rs 3,000 ✓

✓ **Correct Answer: D** P = 600 / (0.05 x 4) = 600 / 0.20 = 3000

42 What is the difference between compound interest and simple interest on Rs 4,000 at 10% per annum for 2 years?

A. Rs 50
B. Rs 40 ✓
C. Rs 30
D. Rs 60

✓ **Correct Answer: B** SI = 800, CI = 4000 x 1.21 - 4000 = 840; difference = 40

43 A sum of money triples itself in 10 years at simple interest. What is the annual rate?

A. 25%
B. 18%
C. 20% ✓
D. 15%

✓ **Correct Answer: C** Interest = 2 x principal in 10 years, so rate = 200/10 = 20%

44 Rs 20,000 is invested at 12% per annum compounded half-yearly. What is the amount after 1 year?

A. Rs 22,800
B. Rs 22,400
C. Rs 22,500
D. Rs 22,472 ✓

✓ **Correct Answer: D** Half-yearly rate = 6%; amount = 20000 x 1.06 x 1.06 = 22472

45 At what simple interest rate per annum will Rs 6,000 earn Rs 1,800 in 5 years?

A. 6% ✓
B. 5%
C. 8%
D. 7%

✓ **Correct Answer: A** 1800 = 6000 x r x 5 / 100, so r = 6

46 A loan of Rs 15,000 is repaid in 12 equal monthly installments, with total interest of Rs 1,800. What is each monthly installment?

A. Rs 1,400 ✓
B. Rs 1,300
C. Rs 1,450
D. Rs 1,350

✓ **Correct Answer: A** Total payable = 16800; monthly = 16800/12 = 1400

47 What is the compound interest on Rs 8,000 at 5% per annum for 3 years, compounded annually?

A. Rs 1,300
B. Rs 1,240
C. Rs 1,261 ✓
D. Rs 1,200

✓ **Correct Answer: C** Amount = 8000 x 1.157625 = 9261; interest = 1261

48 A bank offers 10% simple interest per annum. In how many years will an amount become 1.5 times itself?

A. 5 years ✓
B. 6 years
C. 4 years
D. 7 years

✓ **Correct Answer: A** Need interest = 0.5 x principal = P x 0.10 x t, so t = 5

49 Rs 9,000 grows to Rs 10,890 in 2 years at compound interest. What is the annual rate?

A. 12%
B. 8%
C. 9%
D. 10% ✓

✓ **Correct Answer: D** 10890/9000 = 1.21 = 1.10^2, so rate = 10%

50 A man deposits Rs 50,000 in a savings account paying 4% per annum simple interest. How much interest will he earn in 6 months?

A. Rs 1,000 ✓
B. Rs 1,200
C. Rs 2,000
D. Rs 800

✓ **Correct Answer: A** SI = 50000 x 0.04 x 0.5 = 1000

51 A car travels 240 km in 3 hours. What is its average speed?

A. 85 km/h
B. 75 km/h
C. 80 km/h ✓
D. 70 km/h

✓ **Correct Answer: C** Speed = 240/3 = 80 km/h

52 A 150-metre-long train crosses a pole in 10 seconds. What is its speed in metres per second?

A. 15 m/s ✓
B. 20 m/s
C. 18 m/s
D. 12 m/s

✓ **Correct Answer: A** Speed = 150/10 = 15 m/s

53 A man walks at 5 km/h and takes 36 minutes to reach his office. How far is his office?

A. 2.5 km
B. 4 km
C. 3.5 km
D. 3 km ✓

✓ **Correct Answer: D** 36 min = 0.6 h; distance = 5 x 0.6 = 3 km

54 Two trains 300 km apart start towards each other at 60 km/h and 40 km/h. After how long will they meet?

A. 2.5 hours
B. 3.5 hours
C. 4 hours
D. 3 hours ✓

✓ **Correct Answer: D** Relative speed = 100 km/h; time = 300/100 = 3 h

55 A can finish a job in 12 days and B in 15 days. Working together, in how many days will they finish it?

A. 7.5 days
B. 6 days
C. 7 days
D. 6.67 days ✓

✓ **Correct Answer: D** Combined rate = 1/12 + 1/15 = 9/60; time = 60/9 = 6.67 days

56 8 men can complete a job in 15 days. In how many days can 12 men complete the same job?

A. 8 days
B. 12 days
C. 9 days
D. 10 days ✓

✓ **Correct Answer: D** Total work = 8 x 15 = 120 man-days; days = 120/12 = 10

57 A boat's speed in still water is 12 km/h and the stream flows at 3 km/h. What is the boat's downstream speed?

A. 9 km/h
B. 12 km/h
C. 15 km/h ✓
D. 18 km/h

✓ **Correct Answer: C** Downstream speed = 12 + 3 = 15 km/h

58 One tap fills a tank in 6 hours; another tap empties it in 8 hours. If both are opened together, in how long will the empty tank fill?

A. 20 hours
B. 24 hours ✓
C. 28 hours
D. 14 hours

✓ **Correct Answer: B** Net rate = 1/6 - 1/8 = 1/24 of tank per hour: 24 hours

59 A cyclist covers 45 km in 1.5 hours. At the same speed, how long will he take to cover 75 km?

A. 2.5 hours ✓
B. 2.75 hours
C. 2.25 hours
D. 2 hours

✓ **Correct Answer: A** Speed = 30 km/h; time = 75/30 = 2.5 h

60 P can do a piece of work in 20 days and Q in 30 days. P works alone for 5 days, then Q joins him. In how many days from the start will the work be finished?

A. 15 days
B. 12 days
C. 14 days ✓
D. 13 days

✓ **Correct Answer: C** P does 5/20 = 1/4; remaining 3/4 at combined rate 1/12 per day = 9 more days; total 14 days

61 A train running at 72 km/h crosses a 200-metre platform in 20 seconds. What is the length of the train?

A. 180 m
B. 200 m ✓
C. 220 m
D. 150 m

✓ **Correct Answer: B** 72 km/h = 20 m/s; total distance = 20 x 20 = 400 m; train = 400 - 200 = 200 m

62 If a man increases his speed by 25%, what happens to the time taken to cover a fixed distance?

A. Stays the same
B. Increases by 20%
C. Decreases by 20% ✓
D. Decreases by 25%

✓ **Correct Answer: C** New time = 1/1.25 = 0.80 of old time: a 20% decrease

63 15 workers can build a wall in 24 days. How many workers are needed to build the same wall in 18 days?

A. 19
B. 22
C. 18
D. 20 ✓

✓ **Correct Answer: D** Work = 15 x 24 = 360 worker-days; workers = 360/18 = 20

64 A man rows 10 km upstream in 2 hours and the same 10 km downstream in 1 hour. What is the speed of the stream?

A. 2 km/h
B. 2.5 km/h ✓
C. 3.5 km/h
D. 3 km/h

✓ **Correct Answer: B** Upstream speed 5, downstream speed 10; stream = (10-5)/2 = 2.5 km/h

65 A and B together can do a piece of work in 10 days; A alone can do it in 15 days. In how many days can B alone do it?

A. 35 days
B. 20 days
C. 30 days ✓
D. 25 days

✓ **Correct Answer: C** B's rate = 1/10 - 1/15 = 1/30: B alone takes 30 days

66 If 3x + 7 = 25, what is the value of x?

A. 7
B. 6 ✓
C. 5
D. 8

✓ **Correct Answer: B** 3x = 18, so x = 6

67 Simplify: (4 squared x 4 cubed) divided by 4 to the power 4.

A. 2
B. 4 ✓
C. 1
D. 16

✓ **Correct Answer: B** 4^2 x 4^3 = 4^5; 4^5 / 4^4 = 4

68 What is the next term in the series: 2, 6, 12, 20, 30, ...?

A. 44
B. 40
C. 42 ✓
D. 36

✓ **Correct Answer: C** Differences are 4, 6, 8, 10, so next difference is 12: 30 + 12 = 42

69 If x + y = 12 and x - y = 4, what is the value of xy?

A. 28
B. 36
C. 30
D. 32 ✓

✓ **Correct Answer: D** Adding: 2x = 16, so x = 8, y = 4; xy = 32

70 Evaluate: (15 - 3 x 4) / 3 + 2 squared.

A. 4
B. 3
C. 5 ✓
D. 6

✓ **Correct Answer: C** (15-12)/3 + 4 = 1 + 4 = 5

71 If 2(x - 3) = 5x - 21, what is the value of x?

A. 6
B. 5 ✓
C. 7
D. 4

✓ **Correct Answer: B** 2x - 6 = 5x - 21; 15 = 3x; x = 5

72 What is the next term in the series: 1, 1, 2, 3, 5, 8, ...?

A. 12
B. 15
C. 11
D. 13 ✓

✓ **Correct Answer: D** Each term is the sum of the two before it: 5 + 8 = 13

73 If a = 3 and b = -2, what is the value of a squared minus b cubed?

A. 17 ✓
B. 19
C. 1
D. 5

✓ **Correct Answer: A** a^2 = 9, b^3 = -8; 9 - (-8) = 17

74 Simplify: 5x - 2(3x - 4).

A. -x - 8
B. x + 8
C. 11x - 8
D. 8 - x ✓

✓ **Correct Answer: D** 5x - 6x + 8 = 8 - x

75 What is the next term in the series: 81, 27, 9, 3, ...?

A. 3
B. 0
C. 1 ✓
D. 2

✓ **Correct Answer: C** Each term is divided by 3: 3 / 3 = 1

76 If 5 to the power 2x equals 625, what is the value of x?

A. 3
B. 4
C. 2 ✓
D. 1

✓ **Correct Answer: C** 625 = 5^4, so 2x = 4 and x = 2

77 What is the sum of the first 20 natural numbers?

A. 200
B. 220
C. 210 ✓
D. 190

✓ **Correct Answer: C** n(n+1)/2 = 20 x 21 / 2 = 210

78 If x/3 + x/4 = 14, what is the value of x?

A. 22
B. 24 ✓
C. 28
D. 20

✓ **Correct Answer: B** 7x/12 = 14, so x = 14 x 12 / 7 = 24

79 Find the missing number: 7, 14, 28, ?, 112.

A. 42
B. 56 ✓
C. 52
D. 58

✓ **Correct Answer: B** Each term doubles: 28 x 2 = 56

80 If x + y = 10 and 2x - y = 8, what is the value of x - y?

A. 2 ✓
B. 0
C. 4
D. 1

✓ **Correct Answer: A** Adding: 3x = 18, so x = 6, y = 4; x - y = 2

81 A family's monthly expenses (in Rs thousands) are: Rent 25, Food 30, Transport 12, Education 15, Savings 10, Others 8. What percent of the total monthly expense is spent on food?

A. 30% ✓
B. 25%
C. 35%
D. 28%

✓ **Correct Answer: A** Total = 100 thousand; food = 30 thousand = 30%

82 A family's monthly expenses (in Rs thousands) are: Rent 25, Food 30, Transport 12, Education 15, Savings 10, Others 8. What is the ratio of savings to the total monthly expense?

A. 1:8
B. 1:10 ✓
C. 1:9
D. 1:12

✓ **Correct Answer: B** Savings 10 : total 100 = 1:10

83 A family's monthly expenses (in Rs thousands) are: Rent 25, Food 30, Transport 12, Education 15, Savings 10, Others 8. If the rent increases by 20%, what will the new monthly rent be (in Rs thousands)?

A. 28
B. 32
C. 29
D. 30 ✓

✓ **Correct Answer: D** 25 x 1.20 = 30

84 A family's monthly expenses (in Rs thousands) are: Rent 25, Food 30, Transport 12, Education 15, Savings 10, Others 8. Food and transport together form what percent of the total monthly expense?

A. 45%
B. 48%
C. 40%
D. 42% ✓

✓ **Correct Answer: D** 30 + 12 = 42 thousand out of 100 thousand = 42%

85 A family's monthly expenses (in Rs thousands) are: Rent 25, Food 30, Transport 12, Education 15, Savings 10, Others 8. What is the difference between the highest and the lowest monthly expense (in Rs thousands)?

A. 25
B. 22 ✓
C. 18
D. 20

✓ **Correct Answer: B** Highest = food 30, lowest = others 8; 30 - 8 = 22

86 A bank branch recorded these deposits (in Rs million): January 100, February 120, March 150, April 150, May 160, June 200. What were the total deposits in the first quarter (Jan-Mar)?

A. Rs 360 million
B. Rs 380 million
C. Rs 350 million
D. Rs 370 million ✓

✓ **Correct Answer: D** 100 + 120 + 150 = 370

87 A bank branch recorded these deposits (in Rs million): January 100, February 120, March 150, April 150, May 160, June 200. In which month were deposits the highest?

A. April
B. March
C. May
D. June ✓

✓ **Correct Answer: D** June with 200 million is the highest

88 A bank branch recorded these deposits (in Rs million): January 100, February 120, March 150, April 150, May 160, June 200. What was the percentage increase in deposits from February to March?

A. 22%
B. 30%
C. 25% ✓
D. 20%

✓ **Correct Answer: C** (150-120)/120 = 30/120 = 25%

89 A bank branch recorded these deposits (in Rs million): January 100, February 120, March 150, April 150, May 160, June 200. What was the average monthly deposit in the second quarter (Apr-Jun)?

A. Rs 175 million
B. Rs 170 million ✓
C. Rs 160 million
D. Rs 165 million

✓ **Correct Answer: B** (150+160+200)/3 = 510/3 = 170

90 A bank branch recorded these deposits (in Rs million): January 100, February 120, March 150, April 150, May 160, June 200. By how much did total second-quarter deposits exceed first-quarter deposits?

A. Rs 140 million ✓
B. Rs 120 million
C. Rs 150 million
D. Rs 130 million

✓ **Correct Answer: A** Q2 = 510, Q1 = 370; difference = 140

91 What is the HCF of 48 and 72?

A. 36
B. 12
C. 24 ✓
D. 18

✓ **Correct Answer: C** 48 = 2^4 x 3, 72 = 2^3 x 3^2; HCF = 2^3 x 3 = 24

92 What is the LCM of 12, 15 and 20?

A. 240
B. 180
C. 120
D. 60 ✓

✓ **Correct Answer: D** 12 = 2^2 x 3, 15 = 3 x 5, 20 = 2^2 x 5; LCM = 2^2 x 3 x 5 = 60

93 Which of the following fractions is the largest?

A. 11/14
B. 7/9
C. 3/4
D. 5/6 ✓

✓ **Correct Answer: D** In decimals: 0.75, 0.778, 0.833, 0.786; 5/6 is the largest

94 Evaluate: (2.5 x 0.4) + (1.2 / 0.3).

A. 4
B. 5 ✓
C. 5.5
D. 4.5

✓ **Correct Answer: B** 2.5 x 0.4 = 1; 1.2 / 0.3 = 4; 1 + 4 = 5

95 A number leaves a remainder of 3 when divided by 7. What is the smallest 3-digit such number?

A. 100
B. 103
C. 102
D. 101 ✓

✓ **Correct Answer: D** Smallest 3-digit number = 100; 100 mod 7 = 2; next is 101 with remainder 3

96 What is the value of 1/2 + 1/3 + 1/6?

A. 7/6
B. 5/6
C. 1 ✓
D. 4/3

✓ **Correct Answer: C** Common denominator 6: 3/6 + 2/6 + 1/6 = 6/6 = 1

97 The HCF of two numbers is 12 and their LCM is 180. If one number is 36, what is the other?

A. 60 ✓
B. 72
C. 54
D. 48

✓ **Correct Answer: A** Other = (HCF x LCM) / first = (12 x 180) / 36 = 60

98 Express 0.125 as a fraction in its simplest form.

A. 1/8 ✓
B. 1/12
C. 1/10
D. 1/6

✓ **Correct Answer: A** 0.125 = 125/1000 = 1/8

99 The product of two consecutive even numbers is 168. What is the smaller number?

A. 16
B. 12 ✓
C. 10
D. 14

✓ **Correct Answer: B** 12 x 14 = 168, so the smaller is 12

100 If 3/5 of a number is 45, what is the number?

A. 75 ✓
B. 70
C. 80
D. 60

✓ **Correct Answer: A** number = 45 x 5/3 = 75

03 Analytical & Logical Reasoning

Syllogisms • Series • Coding • Relations • Puzzles

Concept Notes

SYLLOGISMS
Draw Venn diagrams. 'All A are B' does not imply 'All B are A'. Two negative or two particular premises yield no valid conclusion.

SERIES
Check differences first, then ratios, then alternating patterns, then squares/cubes/primes.

CODING–DECODING
Write A=1…Z=26. Test shifts (+2, −3…), reversals, and vowel/consonant rules before assuming complex logic.

BLOOD RELATIONS
Draw a family tree (+ male / − female). Break long chains into two halves and solve each.

PUZZLES
Build a grid first. Place definite clues, then eliminate with negative clues ('not next to…').

Practice Questions

1 Statements: All books are pens. All pens are pencils. Conclusions: I. All books are pencils. II. Some pencils are books.

A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusions I and II follow ✓
D. Neither conclusion follows

✓ **Correct Answer: C** All books are pens and all pens are pencils, so every book is a pencil (I). Since all books are pencils, some pencils must be books (II).

2 Statements: Some cats are dogs. No dog is a bird. Conclusions: I. Some cats are not birds. II. No cat is a bird.

A. Only conclusion I follows ✓
B. Only conclusion II follows
C. Both conclusions I and II follow
D. Neither conclusion follows

✓ **Correct Answer: A** The cats that are dogs cannot be birds, so some cats are not birds (I). But cats that are not dogs could still be birds, so II does not follow.

3 Statements: All cars are buses. Some buses are trucks. Conclusions: I. Some trucks are cars. II. No truck is a car.

A. Only conclusion I follows
B. Both conclusions I and II follow
C. Neither conclusion follows ✓
D. Only conclusion II follows

✓ **Correct Answer: C** The middle term 'buses' is undistributed in both statements, so no definite link between cars and trucks can be drawn.

4 Statements: No student is a teacher. All teachers are mentors. Conclusions: I. No student is a mentor. II. Some mentors are not students.

A. Both conclusions I and II follow
B. Only conclusion II follows ✓
C. Only conclusion I follows
D. Neither conclusion follows

✓ **Correct Answer: B** Every teacher is a mentor and no teacher is a student, so those mentors (the teachers) are not students - II follows. But students could still be mentors through other routes, so I does not follow.

5 Statements: Some mangoes are apples. All apples are fruits. Conclusions: I. Some mangoes are fruits. II. All fruits are mangoes.

A. Only conclusion I follows ✓
B. Only conclusion II follows
C. Neither conclusion follows
D. Both conclusions I and II follow

✓ **Correct Answer: A** The mangoes that are apples are also fruits, so I follows. II reverses the statement and does not follow.

6 Statements: All doctors are humans. Some humans are nurses. Conclusions: I. Some nurses are doctors. II. All nurses are humans.

A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusions I and II follow
D. Neither conclusion follows ✓

✓ **Correct Answer: D** 'Some humans are nurses' only guarantees that at least one nurse is human; neither conclusion can be drawn with certainty.

7 Statements: No circle is a square. All squares are rectangles. Conclusions: I. No circle is a rectangle. II. Some rectangles are not circles.

A. Only conclusion I follows
B. Only conclusion II follows ✓
C. Both conclusions I and II follow
D. Neither conclusion follows

✓ **Correct Answer: B** The squares are rectangles that are not circles, so some rectangles are not circles (II). But other rectangles could still be circles, so I does not follow.

8 Statements: All lions are animals. All tigers are animals. Conclusions: I. Some animals are lions. II. All lions are tigers.

A. Both conclusions I and II follow
B. Only conclusion II follows
C. Neither conclusion follows
D. Only conclusion I follows ✓

✓ **Correct Answer: D** Since all lions are animals, the lions themselves are animals that are lions - I follows. Both being animals does not make lions tigers, so II does not follow.

9 Statements: Some pens are pencils. Some pencils are erasers. Conclusions: I. Some pens are erasers. II. No eraser is a pen.

A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusions I and II follow
D. Neither conclusion follows ✓

✓ **Correct Answer: D** Two 'some' statements with an undistributed middle term ('pencils') yield no definite conclusion.

10 Statements: All engineers are graduates. No graduate is illiterate. Conclusions: I. No engineer is illiterate. II. Some graduates are engineers.

A. Only conclusion I follows
B. Both conclusions I and II follow ✓
C. Only conclusion II follows
D. Neither conclusion follows

✓ **Correct Answer: B** Engineers are graduates and no graduate is illiterate, so no engineer is illiterate (I). All engineers being graduates means some graduates are engineers (II).

11 Statements: Some players are singers. All singers are artists. Conclusions: I. Some players are artists. II. Some artists are players.

A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusions I and II follow ✓
D. Neither conclusion follows

✓ **Correct Answer: C** The players who are singers are also artists (I), and the converse of I gives II.

12 Statements: All phones are gadgets. No gadget is a book. Conclusions: I. No phone is a book. II. Some books are phones.

A. Only conclusion II follows
B. Neither conclusion follows
C. Only conclusion I follows ✓
D. Both conclusions I and II follow

✓ **Correct Answer: C** Phones are gadgets and no gadget is a book, so no phone is a book (I). II contradicts I and does not follow.

13 Statements: Some tables are chairs. All chairs are furniture. Conclusions: I. Some tables are furniture. II. All furniture are tables.

A. Neither conclusion follows
B. Only conclusion II follows
C. Only conclusion I follows ✓
D. Both conclusions I and II follow

✓ **Correct Answer: C** The tables that are chairs are also furniture (I). II reverses the statement and does not follow.

14 Statements: No fish is a mammal. Some mammals are whales. Conclusions: I. Some whales are not fish. II. No whale is a fish.

A. Only conclusion I follows ✓
B. Only conclusion II follows
C. Both conclusions I and II follow
D. Neither conclusion follows

✓ **Correct Answer: A** The whales that are mammals cannot be fish, so some whales are not fish (I). Whales that are not mammals could still be fish, so II does not follow.

15 Statements: All roses are flowers. Some flowers are red. Conclusions: I. Some roses are red. II. All red things are flowers.

A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusions I and II follow
D. Neither conclusion follows ✓

✓ **Correct Answer: D** The red flowers need not be roses, and red things outside flowers may exist - neither follows.

16 Statements: Some lawyers are judges. No judge is a clerk. Conclusions: I. Some lawyers are not clerks. II. Some clerks are lawyers.

A. Only conclusion II follows
B. Only conclusion I follows ✓
C. Both conclusions I and II follow
D. Neither conclusion follows

✓ **Correct Answer: B** The lawyers who are judges cannot be clerks, so some lawyers are not clerks (I). II does not follow.

17 Statements: All birds are flyers. Some flyers are insects. Conclusions: I. Some insects are birds. II. No insect is a bird.

A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusions I and II follow
D. Neither conclusion follows ✓

✓ **Correct Answer: D** The middle term 'flyers' is undistributed, so no definite link between insects and birds follows.

18 Statements: All keys are locks. Some locks are doors. Conclusions: I. Some doors are keys. II. All doors are locks.

A. Only conclusion I follows
B. Both conclusions I and II follow
C. Only conclusion II follows
D. Neither conclusion follows ✓

✓ **Correct Answer: D** No definite conclusion follows from 'all' plus 'some' with an undistributed middle term.

19 Statements: No honest man is corrupt. All corrupt men are punished. Conclusions: I. No honest man is punished. II. Some punished men are corrupt.

A. Only conclusion I follows
B. Only conclusion II follows ✓
C. Both conclusions I and II follow
D. Neither conclusion follows

✓ **Correct Answer: B** All corrupt men are punished, so some punished men are corrupt (II). Honest men could be punished for other reasons, so I does not follow.

20 Statements: Some nurses are doctors. All doctors are professionals. Some professionals are teachers. Conclusions: I. Some nurses are professionals. II. Some teachers are nurses.

A. Only conclusion II follows
B. Neither conclusion follows
C. Both conclusions I and II follow
D. Only conclusion I follows ✓

✓ **Correct Answer: D** The nurses who are doctors are professionals (I). The teachers need not overlap with nurses, so II does not follow.

21 Pointing to a photograph, Ali says: 'She is the daughter of my grandfather's only son.' How is the woman in the photograph related to Ali?

A. Sister ✓
B. Mother
C. Aunt
D. Cousin

✓ **Correct Answer: A** Grandfather's only son is Ali's father; his daughter is Ali's sister.

22 A is B's brother. B is C's sister. C is D's mother. How is A related to D?

A. Uncle ✓
B. Father
C. Brother
D. Grandfather

✓ **Correct Answer: A** A and B are siblings, and B and C are siblings, so A is C's brother; C is D's mother, so A is D's (maternal) uncle.

23 Pointing to a boy, a girl says: 'He is the son of the only daughter of my mother's mother.' How is the boy related to the girl?

A. Cousin
B. Brother ✓
C. Uncle
D. Nephew

✓ **Correct Answer: B** Her mother's mother is her grandmother; the grandmother's only daughter is her mother; her mother's son is her brother.

24 X is the father of Y. Y is the sister of Z. Z is the son of W. How is W related to X?

A. Sister
B. Mother
C. Daughter
D. Wife ✓

✓ **Correct Answer: D** Y and Z are siblings, so W (Z's mother) is also Y's mother; X is Y's father, so W is X's wife.

25 A woman says: 'My mother's only brother's son is my _____.' Fill in the blank.

A. Brother
B. Uncle
C. Cousin ✓
D. Nephew

✓ **Correct Answer: C** Her mother's only brother is her maternal uncle; his son is her cousin.

26 P is Q's father. R is P's sister. S is R's mother. How is S related to Q?

A. Grandmother ✓
B. Mother
C. Aunt
D. Sister

✓ **Correct Answer: A** R is P's sister, so S (R's mother) is also P's mother; P is Q's father, so S is Q's grandmother.

27 Pointing to a man, Sana says: 'He is the brother of my sister's husband.' How is the man related to Sana?

A. Brother
B. Cousin
C. Uncle
D. Brother-in-law ✓

✓ **Correct Answer: D** Her sister's husband is her brother-in-law; his brother is also her brother-in-law.

28 If A + B means A is the father of B, A - B means A is the mother of B, and A x B means A is the brother of B, then in the expression P + Q - R x S, P is S's _____.

A. Father
B. Grandfather ✓
C. Uncle
D. Brother

✓ **Correct Answer: B** P is Q's father and Q is the mother of R and S, so P is the maternal grandfather of S.

29 E is the daughter of F. F is the brother of G. G is the wife of H. How is E related to H?

A. Nephew
B. Niece ✓
C. Daughter
D. Sister

✓ **Correct Answer: B** F is G's brother, so F's daughter E is G's niece; G is H's wife, so E is H's niece.

30 A man (who has no brothers) introduces a lady at a gathering and says: 'She is the wife of my father's son.' How is the lady related to the man?

A. Sister
B. Mother
C. Aunt
D. Wife ✓

✓ **Correct Answer: D** With no brothers, 'my father's son' is the man himself, so the lady is his wife.

31 K is the mother of L. L is the sister of M. M is the father of N. How is K related to N?

A. Grandmother ✓
B. Mother
C. Aunt
D. Great-aunt

✓ **Correct Answer: A** K is the mother of both L and M; M is N's father, so K is N's grandmother.

32 A woman says: 'Her mother is the only daughter of my mother.' How is the girl related to the woman?

A. Sister
B. Niece
C. Daughter ✓
D. Granddaughter

✓ **Correct Answer: C** The woman's mother's only daughter is the woman herself, so 'her mother' is the woman - the girl is her daughter.

33 T is U's brother. V is T's mother. W is V's father. How is T related to W?

A. Grandson ✓
B. Uncle
C. Father
D. Brother

✓ **Correct Answer: A** W is V's father and V is T's mother, so W is T's grandfather - T is W's grandson.

34 If M x N means M is the sister of N, M / N means M is the brother of N, and M + N means M is the father of N, then in A + B x C / D, A is D's _____.

A. Uncle
B. Grandfather
C. Brother
D. Father ✓

✓ **Correct Answer: D** A is the father of B, and B, C, D are siblings, so A is D's father.

35 Zara says to Ahmed: 'Your father's only son is my husband.' How is Zara related to Ahmed?

A. Sister
B. Mother
C. Wife ✓
D. Cousin

✓ **Correct Answer: C** 'Your father's only son' is Ahmed himself, so Ahmed is Zara's husband - Zara is Ahmed's wife.

36 A man walks 5 km north, then turns right and walks 3 km, then turns right again and walks 5 km. How far and in which direction is he from his starting point?

A. 3 km East ✓
B. 3 km West
C. 5 km North
D. 8 km South

✓ **Correct Answer: A** The 5 km north and 5 km south legs cancel out; the 3 km eastward leg remains - he is 3 km east of the start.

37 A girl faces east, turns left and walks 4 km, then turns left again and walks 4 km. In which direction is she facing now?

A. East
B. West ✓
C. North
D. South

✓ **Correct Answer: B** East, then a left turn faces north, then another left turn faces west; the second leg is walked facing west.

38 Starting from point O, a boy walks 10 m south, turns left and walks 6 m, then turns right and walks 4 m. In which direction is he from O?

A. South-East ✓
B. South-West
C. North-East
D. North-West

✓ **Correct Answer: A** His final position is 6 m east and 14 m south of O - that is south-east.

39 A person walks 8 km west, then turns right and walks 6 km. What is the shortest distance from the starting point?

A. 14 km
B. 10 km ✓
C. 12 km
D. 8 km

✓ **Correct Answer: B** Right triangle with legs 8 and 6: the shortest distance is the hypotenuse, sqrt(64+36) = 10 km.

40 A man faces north, turns 90 degrees clockwise, then turns 180 degrees anticlockwise. In which direction is he facing now?

A. North
B. South
C. East
D. West ✓

✓ **Correct Answer: D** North turned 90 degrees clockwise is east; east turned 180 degrees anticlockwise is west.

41 Ahmed walks 3 km east, then 4 km north, then 3 km west, then 4 km south. Where is he now?

A. 7 km East
B. At the starting point ✓
C. 8 km North
D. 1 km West

✓ **Correct Answer: B** East-west legs cancel (3-3) and north-south legs cancel (4-4) - he is back at the start.

42 A car travels 12 km north, then 5 km east, then 12 km south. How far is it from its starting point?

A. 5 km West
B. 17 km
C. 29 km
D. 5 km East ✓

✓ **Correct Answer: D** The 12 km north and 12 km south legs cancel, leaving only the 5 km eastward displacement.

43 One morning, the shadow of a vertical pole falls exactly to the west. In which direction is the sun?

A. East ✓
B. West
C. North
D. South

✓ **Correct Answer: A** Shadows fall opposite the sun; a westward shadow means the sun is in the east.

44 Ravi starts facing south. He turns left, then left again, then right (each turn 90 degrees). In which direction is he facing now?

A. North
B. South
C. West
D. East ✓

✓ **Correct Answer: D** South, left turn faces east, left turn faces north, right turn faces east.

45 A boy walks 6 m north, turns right and walks 8 m, turns right and walks 6 m, then turns left and walks 4 m. How far is he from his starting point?

A. 12 m East ✓
B. 20 m
C. 4 m North
D. 12 m West

✓ **Correct Answer: A** Track the position: (0,6) to (8,6) to (8,0) to (12,0) - net displacement is 12 m east, 0 m north-south.

46 If each letter is replaced by its alphabet position and the numbers are joined together, CAT is written as 3120. How would DOG be written?

A. 4157 ✓
B. 4715
C. 4571
D. 5147

✓ **Correct Answer: A** D=4, O=15, G=7, joined together gives 4157.

47 If BOOK is coded as 2151511 using alphabet positions joined together, how would PEN be coded?

A. 16145
B. 16514 ✓
C. 51416
D. 14165

✓ **Correct Answer: B** P=16, E=5, N=14, joined together gives 16514.

48 In a certain code, MANGO is written as NBOHP (each letter shifted one step forward). How would APPLE be written?

A. BQQMF ✓
B. ZOOKD
C. BQQME
D. AQQMF

✓ **Correct Answer: A** Each letter moves one step forward: A to B, P to Q, P to Q, L to M, E to F.

49 If each letter is replaced by its alphabet position and the numbers are added, WATER = 23+1+20+5+18 = 67. What is the code for FIRE?

A. 40
B. 38 ✓
C. 36
D. 42

✓ **Correct Answer: B** F+I+R+E = 6+9+18+5 = 38.

50 In a code, each letter is replaced by its opposite in the alphabet (A becomes Z, B becomes Y, and so on). If BAD is coded as YZW, how would CAT be coded?

A. XZH
B. XZG ✓
C. WZG
D. YZG

✓ **Correct Answer: B** Opposites: C becomes X, A becomes Z, T becomes G - giving XZG.

51 If each letter is replaced by its position in the alphabet (A=1, B=2, ...), HELLO is written as 8-5-12-12-15. How would WORLD be written?

A. 22-15-18-12-4
B. 23-14-18-12-4
C. 23-15-18-12-4 ✓
D. 23-15-17-12-4

✓ **Correct Answer: C** W=23, O=15, R=18, L=12, D=4.

52 In a code, each consonant is shifted 2 steps forward and each vowel is shifted 1 step backward. How would CODE be written?

A. ENFD ✓
B. DNFE
C. ENFE
D. EMFD

✓ **Correct Answer: A** C+2=E, O-1=N, D+2=F, E-1=D - giving ENFD.

53 If TRAIN is coded as USBJO (each letter shifted one step forward), how would PLANE be coded?

A. QLANF
B. QMBOF ✓
C. OMZND
D. RNCQG

✓ **Correct Answer: B** Each letter moves one step forward: P to Q, L to M, A to B, N to O, E to F.

54 In a certain code, the letters of the word are written in reverse order: TABLE becomes ELBAT. How would CHAIR be coded?

A. RIAHC ✓
B. RIACH
C. RAHIC
D. RCIHA

✓ **Correct Answer: A** Reverse the letters of CHAIR: C-H-A-I-R becomes R-I-A-H-C.

55 If A=1, B=2, C=3 and so on, the code for CAB is 3+1+2 = 6. What is the code for BAD?

A. 6
B. 8
C. 5
D. 7 ✓

✓ **Correct Answer: D** B+A+D = 2+1+4 = 7.

56 In a code, the 1st letter of a word is shifted 1 step forward, the 2nd letter 2 steps forward, the 3rd letter 3 steps forward, and so on. If ABC becomes BDF, how would CAT be coded?

A. DBV
B. ECX
C. DCW ✓
D. DCV

✓ **Correct Answer: C** C+1=D, A+2=C, T+3=W - giving DCW.

57 In a code, each vowel is replaced by the next vowel (A to E, E to I, I to O, O to U, U to A) and consonants stay the same. How would HELLO be coded?

A. HELLU
B. HILLO
C. HILLU ✓
D. HULLI

✓ **Correct Answer: C** E becomes I and O becomes U; consonants unchanged: H-I-L-L-U.

58 In a code, letters are alternately shifted +1 and -1: DOG becomes ENH (D+1=E, O-1=N, G+1=H). How would CAT be coded?

A. DZU ✓
B. EZU
C. DZT
D. CZU

✓ **Correct Answer: A** Alternate +1, -1, +1: C to D, A to Z, T to U - giving DZU.

59 In a code, the first and last letters of a word are swapped: PLANET becomes TLANEP. How would MARKET be coded?

A. TARKEM ✓
B. TARKME
C. MAREKT
D. TEKRAM

✓ **Correct Answer: A** Swap the first and last letters of MARKET: M and T swap, giving T-A-R-K-E-M.

60 In a certain code, the code for a word = (sum of alphabet positions of its letters) x (number of letters). If GO = (7+15) x 2 = 44, what is the code for YES?

A. 49
B. 98
C. 147 ✓
D. 150

✓ **Correct Answer: C** Y+E+S = 25+5+19 = 49; 49 x 3 letters = 147.

61 Find the missing number: 2, 6, 12, 20, 30, ?

A. 40
B. 42 ✓
C. 44
D. 36

✓ **Correct Answer: B** Differences grow by 2 each time: +4, +6, +8, +10, so the next step is +12: 30+12 = 42.

62 Find the missing number: 3, 9, 27, 81, ?

A. 243 ✓
B. 162
C. 324
D. 240

✓ **Correct Answer: A** Each term is multiplied by 3: 81 x 3 = 243.

63 Find the missing number: 5, 11, 23, 47, ?

A. 95 ✓
B. 94
C. 96
D. 93

✓ **Correct Answer: A** Each term is doubled and 1 is added: 47 x 2 + 1 = 95.

64 Find the missing number: 1, 4, 9, 16, 25, ?

A. 36 ✓
B. 30
C. 35
D. 49

✓ **Correct Answer: A** These are the squares of 1, 2, 3, 4, 5 - the next is 6 squared = 36.

65 Find the missing number: 7, 14, 28, 56, ?

A. 108
B. 116
C. 112 ✓
D. 124

✓ **Correct Answer: C** Each term is doubled: 56 x 2 = 112.

66 Find the missing number: 100, 90, 81, 73, 66, ?

A. 58
B. 62
C. 60 ✓
D. 59

✓ **Correct Answer: C** Differences shrink by 1 each time: -10, -9, -8, -7, so the next is -6: 66-6 = 60.

67 Find the missing number: 2, 3, 5, 9, 17, ?

A. 31
B. 33 ✓
C. 32
D. 35

✓ **Correct Answer: B** Each term is doubled and 1 is subtracted: 17 x 2 - 1 = 33.

68 Find the missing number: 1, 2, 6, 24, 120, ?

A. 600
B. 840
C. 720 ✓
D. 480

✓ **Correct Answer: C** These are factorials: 1!, 2!, 3!, 4!, 5! - the next is 6! = 720.

69 Find the missing letter: A, C, F, J, O, ?

A. T
B. V
C. U ✓
D. S

✓ **Correct Answer: C** The gaps grow by one each time: +2, +3, +4, +5, so the next is +6: O + 6 steps = U.

70 Find the missing letter: Z, X, V, T, ?

A. Q
B. S
C. R ✓
D. P

✓ **Correct Answer: C** Each letter moves 2 steps back in the alphabet: T - 2 = R.

71 Find the missing number: 13, 17, 19, 23, 29, ?

A. 30
B. 32
C. 31 ✓
D. 33

✓ **Correct Answer: C** These are consecutive prime numbers - the next prime after 29 is 31.

72 Find the missing number: 50, 45, 40, 35, ?

A. 30 ✓
B. 28
C. 32
D. 25

✓ **Correct Answer: A** Each term decreases by 5: 35 - 5 = 30.

73 Find the missing letter: B, D, G, K, P, ?

A. U
B. W
C. V ✓
D. T

✓ **Correct Answer: C** The gaps grow by one each time: +2, +3, +4, +5, so the next is +6: P + 6 steps = V.

74 Find the missing number: 1, 8, 27, 64, ?

A. 100
B. 121
C. 144
D. 125 ✓

✓ **Correct Answer: D** These are the cubes of 1, 2, 3, 4 - the next is 5 cubed = 125.

75 Find the missing term: 2A, 4C, 8E, 16G, ?

A. 32H
B. 32J
C. 24I
D. 32I ✓

✓ **Correct Answer: D** The numbers double (2, 4, 8, 16, so 32) and the letters skip one each time (A, C, E, G, so I).

76 Five friends - Ahmed, Bilal, Sara, Zara and Omar - sit in a row facing north. Ahmed sits at one of the ends. Bilal sits immediately to the right of Ahmed. Sara sits between Bilal and Zara. Omar sits at an end. Who sits in the middle of the row?

A. Ahmed
B. Bilal
C. Sara ✓
D. Zara

✓ **Correct Answer: C** Ahmed must be at the left end with Bilal next to him (positions 1, 2). Sara between Bilal and Zara gives positions 2, 3, 4, and Omar takes the right end: Ahmed, Bilal, Sara, Zara, Omar. The middle seat (3rd) is Sara's.

77 Five friends - Ahmed, Bilal, Sara, Zara and Omar - sit in a row facing north. Ahmed sits at one of the ends. Bilal sits immediately to the right of Ahmed. Sara sits between Bilal and Zara. Omar sits at an end. Who sits at the right end of the row?

A. Zara
B. Omar ✓
C. Ahmed
D. Bilal

✓ **Correct Answer: B** The only arrangement fitting all conditions is Ahmed, Bilal, Sara, Zara, Omar from left to right, so Omar is at the right end.

78 Five friends - Ahmed, Bilal, Sara, Zara and Omar - sit in a row facing north. Ahmed sits at one of the ends. Bilal sits immediately to the right of Ahmed. Sara sits between Bilal and Zara. Omar sits at an end. Who sits immediately to the left of Zara?

A. Bilal
B. Omar
C. Sara ✓
D. Ahmed

✓ **Correct Answer: C** The arrangement is Ahmed, Bilal, Sara, Zara, Omar; the seat immediately left of Zara (4th) is Sara (3rd).

79 Five friends - Ahmed, Bilal, Sara, Zara and Omar - sit in a row facing north. Ahmed sits at one of the ends. Bilal sits immediately to the right of Ahmed. Sara sits between Bilal and Zara. Omar sits at an end. Which pair sits at the two ends of the row?

A. Ahmed and Zara
B. Bilal and Omar
C. Sara and Ahmed
D. Ahmed and Omar ✓

✓ **Correct Answer: D** The arrangement is Ahmed, Bilal, Sara, Zara, Omar; the ends are Ahmed (left) and Omar (right).

80 Four people - Ali, Hassan, Imran and Kamran - live on floors 1 to 4 of a building (floor 1 is the bottom). Each has a different profession: doctor, engineer, teacher, banker. The doctor lives on the top floor. Ali lives immediately below the engineer. Hassan is the teacher and lives on floor 1. Kamran lives on floor 4. Who is the doctor?

A. Ali
B. Hassan
C. Imran
D. Kamran ✓

✓ **Correct Answer: D** Hassan (teacher) is on floor 1 and Kamran is on floor 4, so Kamran is the doctor. Ali cannot be on floor 3 (the engineer would then be the doctor Kamran on floor 4 - a clash), so Ali is on floor 2 with Imran the engineer on floor 3.

81 Four people - Ali, Hassan, Imran and Kamran - live on floors 1 to 4 of a building (floor 1 is the bottom). Each has a different profession: doctor, engineer, teacher, banker. The doctor lives on the top floor. Ali lives immediately below the engineer. Hassan is the teacher and lives on floor 1. Kamran lives on floor 4. On which floor does the engineer live?

A. 3 ✓
B. 1
C. 2
D. 4

✓ **Correct Answer: A** Solving the puzzle: Hassan (teacher) floor 1, Ali (banker) floor 2, Imran (engineer) floor 3, Kamran (doctor) floor 4 - the engineer is on floor 3.

82 Four people - Ali, Hassan, Imran and Kamran - live on floors 1 to 4 of a building (floor 1 is the bottom). Each has a different profession: doctor, engineer, teacher, banker. The doctor lives on the top floor. Ali lives immediately below the engineer. Hassan is the teacher and lives on floor 1. Kamran lives on floor 4. What is Ali's profession?

A. Doctor
B. Engineer
C. Banker ✓
D. Teacher

✓ **Correct Answer: C** Kamran is the doctor (floor 4), Hassan is the teacher (floor 1), Imran is the engineer (floor 3), leaving banker for Ali on floor 2.

83 Four people - Ali, Hassan, Imran and Kamran - live on floors 1 to 4 of a building (floor 1 is the bottom). Each has a different profession: doctor, engineer, teacher, banker. The doctor lives on the top floor. Ali lives immediately below the engineer. Hassan is the teacher and lives on floor 1. Kamran lives on floor 4. Who lives immediately above Hassan?

A. Imran
B. Kamran
C. Ali ✓
D. No one

✓ **Correct Answer: C** Hassan is on floor 1, and the full arrangement puts Ali on floor 2 - immediately above Hassan.

84 Five tasks P, Q, R, S and T are scheduled on five consecutive days Monday to Friday, one task per day. P is done on Wednesday. Q is done immediately before R. S is done before T but not on Monday. Q is not done on Monday. Which task is done on Monday?

A. S
B. T ✓
C. Q
D. R

✓ **Correct Answer: B** Q immediately before R and Q not on Monday rules out Monday-Tuesday; Wednesday is taken by P, so Q is Thursday and R is Friday. S before T with S not on Monday leaves S on Tuesday and T on Monday.

85 Five tasks P, Q, R, S and T are scheduled on five consecutive days Monday to Friday, one task per day. P is done on Wednesday. Q is done immediately before R. S is done before T but not on Monday. Q is not done on Monday. Which task is done immediately after P?

A. R
B. S
C. T
D. Q ✓

✓ **Correct Answer: D** The schedule is Monday T, Tuesday S, Wednesday P, Thursday Q, Friday R - the task right after P (Wednesday) is Q (Thursday).

86 Five tasks P, Q, R, S and T are scheduled on five consecutive days Monday to Friday, one task per day. P is done on Wednesday. Q is done immediately before R. S is done before T but not on Monday. Q is not done on Monday. How many days after S is R done?

A. 2
B. 3 ✓
C. 4
D. 1

✓ **Correct Answer: B** The schedule is Monday T, Tuesday S, Wednesday P, Thursday Q, Friday R - R (Friday) is 3 days after S (Tuesday).

87 Five tasks P, Q, R, S and T are scheduled on five consecutive days Monday to Friday, one task per day. P is done on Wednesday. Q is done immediately before R. S is done before T but not on Monday. Q is not done on Monday. Which task is done on Friday?

A. P
B. Q
C. S
D. R ✓

✓ **Correct Answer: D** The schedule is Monday T, Tuesday S, Wednesday P, Thursday Q, Friday R - Friday's task is R.

88 Statement: 'The company has decided to give a 20% bonus to all employees this year.' Assumptions: I. The company made good profits this year. II. The employees demanded a bonus.

A. Only assumption I is implicit ✓
B. Only assumption II is implicit
C. Both assumptions are implicit
D. Neither assumption is implicit

✓ **Correct Answer: A** A bonus is normally linked to good performance or profits, so I is implicit. Nothing suggests the employees demanded it, so II is not.

89 Statement: 'All citizens above 18 should vote in the election.' Assumptions: I. Voting is a right of adults. II. All adults are interested in politics.

A. Only assumption II is implicit
B. Only assumption I is implicit ✓
C. Both assumptions are implicit
D. Neither assumption is implicit

✓ **Correct Answer: B** The statement presumes adults have the right to vote (I). It says nothing about their interest in politics (II).

90 Statement: 'Smoking in public places is strictly prohibited.' Conclusions: I. The authorities care about public health. II. Smoking is banned everywhere.

A. Only conclusion II follows
B. Only conclusion I follows ✓
C. Both conclusions follow
D. Neither conclusion follows

✓ **Correct Answer: B** The ban aims to protect people in shared spaces, so I follows. The ban covers public places only, so II overstates it.

91 Statement A: 'Prices of onions doubled in the city last week.' Statement B: 'Heavy rains damaged crops in the growing regions.'

A. A is the cause and B is its effect
B. B is the cause and A is its effect ✓
C. Both are independent causes
D. Both are effects of a common cause

✓ **Correct Answer: B** Crop damage reduces supply, which raises prices - the rains (B) caused the price rise (A).

92 Statement: 'The school announced extra evening classes for board exam students.' Assumptions: I. Students need more preparation. II. Morning classes are useless.

A. Only assumption I is implicit ✓
B. Only assumption II is implicit
C. Both assumptions are implicit
D. Neither assumption is implicit

✓ **Correct Answer: A** Extra classes imply students need more preparation (I). The statement does not judge morning classes as useless (II).

93 Statement A: 'The bank reduced its interest rates.' Statement B: 'More people applied for home loans this month.'

A. A is the cause and B is its effect ✓
B. B is the cause and A is its effect
C. Both are independent causes
D. Both are effects of a common cause

✓ **Correct Answer: A** Lower interest rates make loans cheaper, encouraging more applications - A caused B.

94 Statement: 'Candidates must bring their original CNIC to the test center.' Assumptions: I. Some candidates might otherwise forget it. II. Identity will be verified at the center.

A. Only assumption I is implicit
B. Only assumption II is implicit
C. Both assumptions are implicit ✓
D. Neither assumption is implicit

✓ **Correct Answer: C** The instruction guards against forgetting (I) and implies that identity will be verified (II).

95 Statement: 'The train was delayed by three hours due to fog.' Conclusions: I. Fog can disrupt train schedules. II. All trains were cancelled that day.

A. Only conclusion II follows
B. Neither conclusion follows
C. Both conclusions follow
D. Only conclusion I follows ✓

✓ **Correct Answer: D** A fog-caused delay shows fog disrupts schedules (I). A delay is not a cancellation, so II does not follow.

96 Statement: 'Drink at least 8 glasses of water daily.' Assumptions: I. Most people drink less water than they need. II. Water is essential for health.

A. Only assumption I is implicit
B. Only assumption II is implicit
C. Neither assumption is implicit
D. Both assumptions are implicit ✓

✓ **Correct Answer: D** The advice implies people fall short of the target (I) and that water matters for health (II).

97 Statement A: 'The factory shut down last month.' Statement B: 'Hundreds of workers in the city lost their jobs.'

A. Both are effects of a common cause
B. B is the cause and A is its effect
C. A is the cause and B is its effect ✓
D. Both are independent causes

✓ **Correct Answer: C** Closing the factory directly removed those jobs - A caused B.

98 Statement: 'The new tax policy will increase government revenue.' Assumptions: I. People will keep paying taxes honestly. II. The policy will be implemented properly.

A. Only assumption I is implicit
B. Both assumptions are implicit ✓
C. Only assumption II is implicit
D. Neither assumption is implicit

✓ **Correct Answer: B** Higher revenue depends both on honest compliance (I) and proper implementation (II).

99 Statement: 'Mobile phones are not allowed in the examination hall.' Conclusions: I. Students might use phones to cheat. II. The exam board wants fair exams.

A. Only conclusion I follows
B. Only conclusion II follows
C. Neither conclusion follows
D. Both conclusions follow ✓

✓ **Correct Answer: D** The ban targets cheating via phones (I) and serves the goal of fair exams (II).

100 Statement: 'The library will remain closed on public holidays.' Assumptions: I. The library is normally open on working days. II. Nobody visits the library on holidays.

A. Only assumption I is implicit ✓
B. Only assumption II is implicit
C. Both assumptions are implicit
D. Neither assumption is implicit

✓ **Correct Answer: A** Closing 'on public holidays' implies it is open otherwise (I). The statement says nothing about visitor numbers (II).

04 Banking, Economy, GK & Current Affairs

SBP • Islamic Banking • Pakistan Economy • World GK

Concept Notes

STATE BANK OF PAKISTAN

Established 1 July 1948; HQ Karachi. Sole issuer of currency notes. Conducts monetary policy through the policy rate; Governor: Jameel Ahmad (as of 2026).

ISLAMIC BANKING

Mudarabah: profit-sharing. Murabaha: cost-plus sale. Ijarah: leasing. Sukuk: Islamic bond. Takaful: Islamic insurance.

KEY SYSTEMS

Raast: SBP's instant payments. PRISM: real-time gross settlement. 1LINK: interbank ATM switch.

PAKISTAN ECONOMY

Top exports: textiles. Major imports: petroleum. Remittances hit a record ~$41.6bn in FY2025-26. FBR collects federal taxes; PSDP is the development budget.

CURRENT AFFAIRS

Revise the last 6 months before the test: policy-rate decisions, budget highlights, major appointments, IMF reviews, sports and diplomacy.

Practice Questions

1 The State Bank of Pakistan commenced its operations on:

A. 23 March 1956
B. 14 August 1947
C. 1 January 1974
D. 1 July 1948 ✓

✓ **Correct Answer: D** SBP started functioning on 1 July 1948, inaugurated by Quaid-e-Azam.

2 Who was the first Governor of the State Bank of Pakistan?

A. Ishrat Husain
B. Shamshad Akhtar
C. Zahid Husain ✓
D. Ashraf Wathra

✓ **Correct Answer: C** Zahid Husain was the first Governor of SBP (1948-1953).

3 The operations of the State Bank of Pakistan are primarily governed by:

A. The Banking Companies Ordinance 1962
B. The SBP Act 1948
C. The Companies Act 2017
D. The SBP Act 1956 ✓

✓ **Correct Answer: D** The SBP Act 1956, with amendments, forms the basis of SBP's operations.

4 Which of the following is a PRIMARY function of the State Bank of Pakistan?

A. Collecting income tax
B. Running commercial banks
C. Issuing currency notes ✓
D. Financing the stock market

✓ **Correct Answer: C** SBP is the sole authority for issuing currency notes in Pakistan.

5 As the 'lender of last resort', the State Bank of Pakistan:

A. Lends directly to the public
B. Fixes salaries of bankers
C. Guarantees all business loans
D. Provides emergency liquidity to banks ✓

✓ **Correct Answer: D** A central bank acts as lender of last resort by giving emergency funds to solvent banks in distress.

6 The SBP policy rate is decided by:

A. The Finance Minister
B. Commercial banks jointly
C. The Prime Minister
D. SBP's Monetary Policy Committee ✓

✓ **Correct Answer: D** SBP's Monetary Policy Committee (MPC) sets the policy rate.

7 If the State Bank raises its policy rate, the most likely immediate effect is:

A. Higher government spending
B. Cheaper loans for everyone
C. Reduced inflationary pressure ✓
D. Falling bank deposits

✓ **Correct Answer: C** Higher rates make borrowing costlier, cooling demand and inflation.

8 Under SBP's interest rate corridor, with a policy rate of 11.50%, the overnight ceiling rate is:

A. 11.50%
B. 13.50%
C. 12.50% ✓
D. 10.50%

✓ **Correct Answer: C** The corridor ceiling is 100 bps above the policy rate (11.50% + 1% = 12.50%); floor is 10.50%.

9 Through Open Market Operations (OMOs), the State Bank:

A. Injects or absorbs liquidity in the money market ✓
B. Prints currency notes
C. Builds new bank branches
D. Audits private companies

✓ **Correct Answer: A** OMOs (reverse repo / repo) manage short-term liquidity in the banking system.

10 NIBAF, the training arm of the State Bank of Pakistan, stands for:

A. New Islamic Banking and Finance
B. National Insurance and Banking Forum
C. National Institute of Banking and Finance ✓
D. National Investment Bank of Federal

✓ **Correct Answer: C** NIBAF = National Institute of Banking and Finance, SBP's training institute.

11 The head office of the State Bank of Pakistan is located in:

A. Lahore
B. Islamabad
C. Rawalpindi
D. Karachi ✓

✓ **Correct Answer: D** SBP's head office is in Karachi, with a second head office in Islamabad.

12 Which SBP subsidiary handles retail banking services like prize bonds and government receipts on SBP's behalf?

A. Deposit Protection Corporation
B. Pakistan Banking Council
C. National Bank of Pakistan
D. SBP Banking Services Corporation ✓

✓ **Correct Answer: D** SBP Banking Services Corporation (SBP BSC) is SBP's operational subsidiary.

13 Prudential Regulations issued by SBP apply to:

A. Insurance companies
B. Only foreign banks
C. Banks, DFIs and microfinance banks ✓
D. Stock brokers only

✓ **Correct Answer: C** SBP's prudential regulations govern banks, DFIs and microfinance institutions.

14 The Cash Reserve Requirement (CRR) means banks must:

A. Lend only to the government
B. Pay tax on deposits
C. Hold all cash in vaults
D. Keep a portion of deposits with SBP ✓

✓ **Correct Answer: D** CRR is the share of deposits banks must hold as reserves with the central bank.

15 Deposit protection for small bank depositors in Pakistan is provided by:

A. Deposit Protection Corporation ✓
B. SECP
C. FBR
D. Pakistan Banks Association

✓ **Correct Answer: A** The Deposit Protection Corporation (DPC), a SBP subsidiary, protects eligible deposits.

16 A 'scheduled bank' in Pakistan is one that is:

A. Operating only in Karachi
B. Listed in the Second Schedule of the SBP Act 1956 ✓
C. Owned by the government
D. Open 24 hours a day

✓ **Correct Answer: B** Scheduled banks are listed in the Second Schedule of the SBP Act 1956.

17 In a Mudarabah contract:

A. The bank leases an asset to the client
B. The bank acts as an agent for a fee
C. Goods are sold on deferred payment
D. One party provides capital, the other manages the business ✓

✓ **Correct Answer: D** Mudarabah: rabb-ul-mal provides capital, mudarib manages; profit shared, loss borne by capital.

18 Murabaha is best described as:

A. A partnership contract
B. A lease agreement
C. A cost-plus sale with disclosed profit ✓
D. An interest-free loan

✓ **Correct Answer: C** In Murabaha the bank buys an asset and sells it to the client at cost plus an agreed profit.

19 Ijarah in Islamic banking refers to:

A. A charity fund
B. Profit-sharing deposit
C. Advance purchase of crops
D. Leasing of an asset ✓

✓ **Correct Answer: D** Ijarah is the Islamic mode of leasing where the bank owns the asset and charges rent.

20 Salam financing involves:

A. Full advance payment for future delivery of goods ✓
B. Selling debt at a discount
C. Joint ownership of property
D. Guaranteeing a loan

✓ **Correct Answer: A** In Salam the buyer pays in full in advance for goods to be delivered later.

21 Takaful is the Islamic alternative to:

A. Conventional insurance ✓
B. Mutual funds
C. Credit cards
D. Stock trading

✓ **Correct Answer: A** Takaful is Shariah-compliant mutual protection, an alternative to conventional insurance.

22 Sukuk are:

A. Islamic asset-backed investment certificates ✓
B. Tax exemption certificates
C. Foreign currency accounts
D. Interest-bearing bonds

✓ **Correct Answer: A** Sukuk represent ownership in underlying assets, unlike interest-based bonds.

23 The fundamental difference between Islamic and conventional banking is:

A. Islamic banks are government-owned
B. There is no real difference
C. Islamic banks lend only abroad
D. Islamic banks prohibit interest (riba) ✓

✓ **Correct Answer: D** Islamic banking is built on the prohibition of riba (interest).

24 Inflation means:

A. A rise in unemployment only
B. A fall in the exchange rate
C. A rise in the general price level ✓
D. A fall in the general price level

✓ **Correct Answer: C** Inflation is a sustained rise in the general level of prices.

25 Deflation refers to:

A. Printing more currency
B. A fall in the general price level ✓
C. Rapid economic growth
D. Rising interest rates

✓ **Correct Answer: B** Deflation is the opposite of inflation: a general decline in prices.

26 KYC in banking stands for:

A. Keep Your Cash
B. Kind Yearly Credit
C. Know Your Customer ✓
D. Key Yearly Compliance

✓ **Correct Answer: C** KYC (Know Your Customer) rules verify the identity of account holders.

27 Raast, launched by the State Bank of Pakistan, is:

A. A stock market index
B. A loan scheme for farmers
C. A new currency note
D. Pakistan's instant digital payment system ✓

✓ **Correct Answer: D** Raast is SBP's instant payment system for real-time low-cost transfers.

28 PRISM, operated by SBP, is Pakistan's:

A. Credit rating agency
B. Currency printing press
C. Real-time interbank settlement system ✓
D. Mobile banking app

✓ **Correct Answer: C** PRISM (Pakistan Real-time Interbank Settlement Mechanism) settles large-value payments.

29 1LINK in Pakistan is:

A. SBP's head office building
B. A commercial bank
C. The national interbank ATM and payment switch ✓
D. A microfinance institution

✓ **Correct Answer: C** 1LINK connects banks' ATMs and enables interbank fund transfers.

30 A pay order differs from a cheque mainly because:

A. It is issued by the bank on itself ✓
B. It can bounce like a cheque
C. It is only for foreign currency
D. It needs no signature

✓ **Correct Answer: A** A pay order (banker's cheque) is drawn by the bank on itself, so it cannot bounce.

31 A letter of credit (LC) is most commonly used in:

A. Salary payments
B. International trade finance ✓
C. Zakat distribution
D. Domestic retail shopping

✓ **Correct Answer: B** An LC is a bank's guarantee of payment to an exporter in international trade.

32 NPL in banking terminology means:

A. Non-Performing Loan ✓
B. Net Public Lending
C. National Profit Level
D. New Private Loan

✓ **Correct Answer: A** A non-performing loan is one on which the borrower has stopped paying.

33 Treasury bills (MTBs) are:

A. Short-term government borrowing instruments ✓
B. Long-term 10-year bonds
C. Private company shares
D. Foreign aid grants

✓ **Correct Answer: A** Market Treasury Bills are short-term securities the government uses to borrow.

34 Pakistan Investment Bonds (PIBs) are:

A. Short-term 3-month bills
B. Prize bonds
C. Long-term government bonds ✓
D. Corporate shares

✓ **Correct Answer: C** PIBs are longer-tenure government debt instruments (3, 5, 10 years etc.).

35 The Basel Accords provide international standards for:

A. Trade tariffs
B. Stock market listing
C. Bank capital adequacy and risk management ✓
D. Insurance premiums

✓ **Correct Answer: C** Basel I/II/III set global standards for bank capital and risk management.

36 The largest contributor to Pakistan's GDP is the:

A. Agriculture sector
B. Industrial sector
C. Mining sector
D. Services sector ✓

✓ **Correct Answer: D** Services contribute the largest share of Pakistan's GDP.

37 Pakistan's single largest export category is:

A. Petroleum products
B. Textiles and garments ✓
C. Rice
D. Sports goods

✓ **Correct Answer: B** Textiles and apparel are Pakistan's biggest export earners.

38 The largest item in Pakistan's import bill is typically:

A. Petroleum and energy products ✓
B. Tea
C. Mobile phones

A. 100C ✓
B. 110C
C. 95C
D. 90C

✓ **Correct Answer: A** Water boils at 100C (212F) at standard atmospheric pressure.

96 Photosynthesis in green plants takes place mainly in the:

A. Flowers
B. Leaves ✓
C. Roots
D. Stem

✓ **Correct Answer: B** Leaves contain chlorophyll, which captures sunlight for photosynthesis.

97 The chemical symbol for gold is:

A. Gd
B. Go
C. Ag
D. Au ✓

✓ **Correct Answer: D** Gold's symbol Au comes from its Latin name 'aurum'.

98 The planet closest to the Sun is:

A. Venus
B. Earth
C. Mars
D. Mercury ✓

✓ **Correct Answer: D** Mercury is the closest planet to the Sun.

99 The powerhouse of the cell is the:

A. Chloroplast
B. Nucleus
C. Mitochondria ✓
D. Ribosome

✓ **Correct Answer: C** Mitochondria generate most of the cell's energy (ATP).

100 The normal human body temperature is about:

A. 39C
B. 35C
C. 42C
D. 37C ✓

✓ **Correct Answer: D** Normal body temperature is about 37C (98.6F).

Final Words & Test-Day Checklist

Preparation is a numbers game: the candidates who clear SBOTS are rarely the ones who studied the most books — they are the ones who practised the most questions under time pressure. Use this book actively, not passively.

- Original CNIC + roll number slip (printed) — reach the centre 30 minutes early.
- Two blue/black ballpoints; a simple wristwatch if allowed.
- Attempt easy questions first; never leave a bubble empty (no negative marking).
- Reserve the last 5 minutes purely for review and unattempted questions.
- Sleep well the night before — reasoning sections punish a tired brain.

> Disclaimer. This is a free, unofficial practice resource prepared for SBOTS Batch 29 aspirants. It is not affiliated with or endorsed by the State Bank of Pakistan. Always confirm the official test pattern, dates and instructions from SBP's advertisement and NIBAF communications. All questions are original; any resemblance to actual test items is coincidental. Current-affairs facts were verified as of October 2026 — re-check fast-moving facts before test day.

Good luck — see you at NIBAF.
